- Discussion

Background

Company and Formula Rate

Background – General

Overview of the Company

- Silver Run Electric, LLC (Silver Run) is a transmission-only company established to develop, own, and operate transmission facilities in the PJM region.
- Silver Run owns components of the Artificial Island Project including the Silver Run Substation that commenced operation in April 2020 and a 230 kV transmission line between the Silver Run Substation and the Hope Creek substation in New Jersey that commenced operation in May 2020.
- The Artificial Island Project is subject to certain rate commitments including a cost cap.
- More information is available at silverrunelectric.com.

Background – Regulatory

Selected Regulatory Filings and Orders

- December 2, 2015 – Silver Run files transmission owner tariff and proposed transmission formula rate template in No. ER16-453
 - April 26, 2016 – Certain aspects of the formula rate filing were set for settlement and hearing procedures
 - September 7, 2016 – Parties reach settlement agreement
 - November 17, 2016 – Commission approves settlement agreement
- April 26, 2016 – FERC approves certain transmission rate incentives requested in same Docket No. ER16-453
 - Regulatory asset incentive and accrual of carrying charges
 - 100% recovery of prudently-incurred costs associated with abandonment of the Project
 - 50 bps RTO participation adder (on top of stated base ROE of 9.85% from later settlement agreement)
 - Hypothetical capital structure (50% debt/50% equity) until the Project achieves commercial operation, then 54.75% equity cap
- May 12, 2020 – FERC accepts corrections to the formula rate filed March 25, 2020, in Docket No. ER20-1387
- August 3, 2022 – FERC accepts formula rate revisions to comply with FERC Order No. 864 (ADIT) in Docket No. ER20-1633.
- June 12, 2023 – Silver Run files revised tariff sheets and requests authorization of clean-up or administrative edits to its formula rate template in Docket No. ER23-2123.
- June 27, 2025, FERC accepts filing to adjust the depreciation rates for certain transmission and general plant accounts effective July 1, 2025, in Docket No. ER25-2061

Background – Cost Commitments

Key Provisions

Silver Run made certain cost commitments for the Artificial Island Project

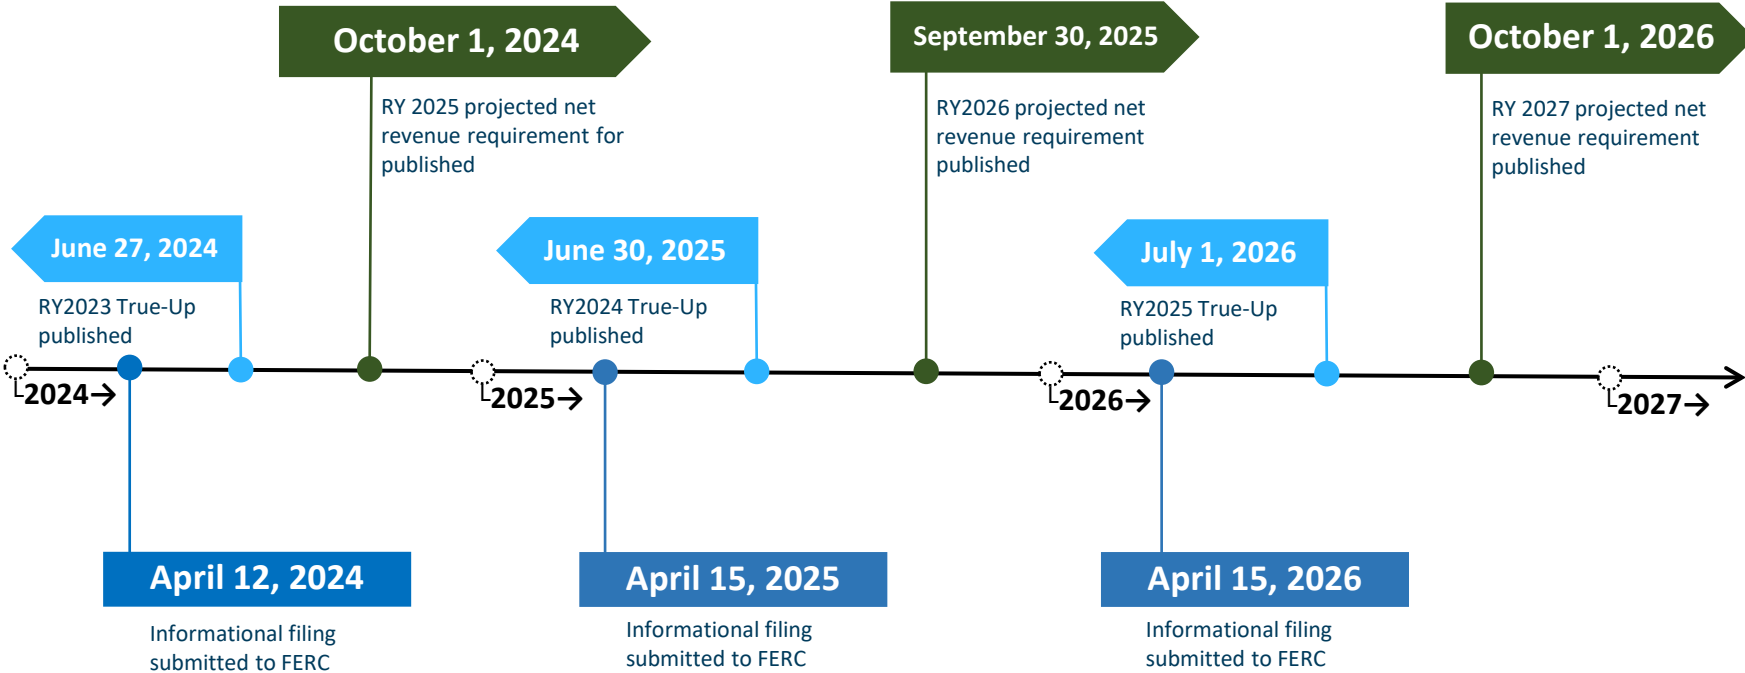

- **Cost Cap**¹ – Silver Run’s Project costs may not exceed the binding cost cap of \$166.3 million, subject to certain exclusions.
- **Equity Cap**² – The Project is subject to an equity percentage cap of 54.75%.

¹ As defined in and subject to the terms of the Designated Entity Agreement between Silver Run and PJM.

² Subject to terms of the settlement agreement in Docket No. ER16-453

Formula Rate Timeline

General Update Process

Formula Rate Timeline

Selected 2025 milestones

- April 15 – Informational filing submitted to FERC in Docket No. ER25-1971
- April 16 – 2024 FERC Form No. 1 submitted to FERC
- April 28 – Filing to adjust depreciation rates in Docket No. ER25-2061
- June 27 – FERC depreciation rates filing effective July 1, in Docket No. ER25-2061
- June 30 – 2024 Annual Update published
- August 6 – 2024 Annual Update Stakeholder Meeting
- September 30– Publication of 2026 Projection
- November 13 – Stakeholder meeting for 2026 Projection
- December 1 – Last day to incorporate corrections into 2026 Projection
- January 1, 2026 – Scheduled end of information request period

Annual Projection

2026 Rate Year

2026 Projection

Summary of Revenue Requirement Components

Appendix H-27A	2026 Projection
13-Month Average Rate Base	\$ 129,290,858
Rate of Return ¹	6.67%
Return on Rate Base	8,622,367
Incentive Return	482,038
Income Taxes	2,696,568
Incentive Return & Income Taxes	3,178,606
Operating Expenses: O&M and A&G Expenses	6,791,123
Depreciation Expenses	3,580,467
Non-income taxes	1,269,905
Total Operating Expenses	11,641,494
Gross Revenue Requirement	23,442,467
Less: Revenue Credits	323,967
Less: True-up Adjustment with Interest ²	1,974,199
Net Revenue Requirement	\$ 21,144,301

¹ Refer to slide 11 for Weighted Average Cost of Capital (WACC) calculation.

² Refer to slide 10, True-Up Adjustment.

True-up Adjustment

True-Up Adjustment (including interest) ¹	Published June 30, 2025
Actual 2024 Net Annual Revenue Requirement (Att. H-27A, Page 1, Line 9)	\$23,980,336
Account 456.1 Revenue Received During 2024 (Att. 3, Line 2; itemized on Workpaper No. 5)	\$25,648,612
Under/(Over) Recovery of Revenue Requirement	(\$1,668,276)
Monthly Interest Rate	0.692%
Interest For 24 Months	(\$305,923)
Total Under/(Over) Recovery Including Interest	(\$1,974,199)

 Adjustment
 incorporated into 2026
 Projection

¹Refer to Attachment 3 (Formula Rate True-up), Attachment 6 (Interest on True-up), and Workpaper No. 5 (Attachment 6 Support) in the published Projection for more detail.

Weighted Average Cost of Capital

WACC Calculation for 2026 Annual Projection

WACC Element	Weight	Cost	Weighted Cost	
Long Term Debt	46.27%	2.98%	1.38%	
Preferred Stock	-	-	-	
Common Stock	53.73%	9.85%	5.29%	
Total			6.67%	= Return

Refer to Attachment 5 (Return on Rate Base worksheet) in the published 2026 Projection for more detail.

Disclaimer

Notwithstanding requirements and terms defined in Silver Run Electric, LLC's (Silver Run) formula rate implementation protocols and terms commonly used in FERC ratemaking (e.g., 'projected', 'projection'), this document and any related discussions may contain certain statements that describe Silver Run management's beliefs concerning future financial performance, future business conditions and prospects, growth opportunities and the outlook for the electric transmission industry based upon information currently available. Such statements are "forward-looking" statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements can be identified by the fact that they do not relate strictly to historical or current facts, and are often identified by words such as "anticipates", "believes", "intends", "estimates", "expects", "projects", "projected", "shall", "will", "should", "could", "may" and similar phrases. Such forward-looking statements are based upon assumptions management believes are reasonable. Such forward-looking statements are subject to important risks, uncertainties and other factors which could cause actual results, performance and achievements to differ materially from those expressed in, or implied by, these statements. These important risks, uncertainties and other factors include: future economic conditions in regional, national and international markets and their effects on prices, costs and availability of required goods and services; market perception of the energy industry and Silver Run; changes in business strategy, operations or development plans; the outcome of contract negotiations for goods and services; effects of current or proposed state and federal legislative and regulatory actions or developments, including deregulation, re-regulation and restructuring of the electric utility industry; decisions of regulators regarding rates that Silver Run may charge; adverse changes in applicable laws, regulations, rules, principles or practices governing tax, accounting and environmental matters; financial market conditions and performance, including changes in interest rates and credit spreads and in availability and cost of capital; impairments of long-lived assets or goodwill; credit ratings; inflation rates; effectiveness of risk management policies and procedures and the ability of counterparties to satisfy their contractual commitments; impact of terrorist acts, including cyber terrorism; and weather conditions, including weather-related damage. Given these uncertainties, you should not rely on forward-looking information.
